

Farm to School

On Monday, October 23rd, the second grade class visited Mr. Miller's Ag classes. At that time, they had the opportunity to make a new friend, use their art skills to draw a face on the pumpkin, hear safety rules while their high school new friend carved the pumpkin. Pumpkins were purchased locally from the McCurdy Pumpkin Patch and HyVee donated bags so the students could take their pumpkin home. Mr. Miller has been doing this activity for 5 years. Also during the month of October, HyVee came to Washington Elementary School and conducted an apple talk with the all the second graders. Lots of good information was presented at this time. The second graders also enjoyed a honey crisp apple donated by HyVee.
